- Business & Requirement Analysis
- User & Access Administration
- UAT & System Testing
- Data Validation & Operations
- Cross-Functional Coordination
- Process Improvement & Documentation
- Internal Audit Support
- Project Coordination
- Google Sheets & Apps Script
- Stakeholder Coordination
- Release Support

PROFESSIONAL EXPERIENCE

Application Engineer IT Consultants PLC

15 October 2024 – Present

- Provide application and solution support for a SaaS-based Card Management System (CMS) serving approximately 36 banking clients.
- Perform CMS administration including user creation, access provisioning, password reset, account unlocking, user cancellation, and role/access-related support.
- Execute card operations including batch card creation, modification, and deletion, along with card and account setup and maintenance.
- Create and modify accounts and configure operational entities such as branches and stations within the CMS environment.
- Collect business and operational requirements, analyze issues, and provide solution-oriented guidance to banking and internal support teams.
- Coordinate with TOS, R&D/development, database, CMS checking, and online teams for system changes, testing, validation, and release activities.
- Support SMS, Card Mailer, and e-Statement related change requests, including requirement collection, change tracking, and coordination.
- Support UAT, testing, data validation, and release processes; investigate issues and coordinate resolution across teams.
- Prepare and maintain technical and operational documentation, trackers, reports, and process records for recurring CMS activities.
- Participated in two internal audit exercises, supporting CMS-related information gathering, verification, documentation, and cross-team coordination.
- Develop internal tracking and reporting solutions and automate recurring operational activities using Google Sheets and Google Apps Script.

IELTS Trainer
SMANS School of English

July 2023 – July 2024

- Conducted IELTS training in Reading, Listening, Writing, and Speaking.
- Guided learners on question-solving strategies, English development, and examination techniques.
- Assessed learner performance, identified weaknesses, provided individual feedback, and prepared practice materials and lesson plans.

Online Support Specialist
SR Dream IT

July 2022 – October 2022

- Provided online customer and operational support through digital communication channels.
- Assisted with issue resolution, information handling, and day-to-day support activities.
